

## NEBULA GRANDE HANDPAINTED

59”L x 20”W x 28” H

Providing soft light in an organic and unique design, the Nebula Lamp draws its inspiration from the interstellar clouds of dust and gas. Entirely handcrafted of Banaca (banana-abaca), a fiber from the Philippines woven by a community of weavers in the province of Bicol, the voluminous flowing shape is created by hand and can be remodeled according to one's liking and style thanks to its pliant quality. This lamp received a special mention from the jury at Salone Satellite during Milan Design Week 2019.

This piece is one of the newest additions to the award-winning collection that debuted at Salone Satellite in Milan.
