

BACKGAMMON TABLE

36" Dia x 1.5" H as shown

Custom sizing available

This unique table marks our second foray into tables that double as a functioning backgammon table in the round with a recessed area for dice, our first being a collaboration with the Bergdorf Goodman's men's store.

This piece features an ebonized solid wood structure with inlaid Argentine Rosewood, Sycamore and genuine Ebony top. We've added a recess on the bottom for ease of picking up and moving it, as well as a rounded edge on the top and a silky, natural finish that will only get better with age.
